Education

University of Connecticut, Storrs, CT 3.41/4.0 GPA

Computer Science (Bachelor of Science), Mathematics minor Expected May 2025

Software Design and Development

C++ Essentials, Data Structures & Algorithms, Cloud Computing, Big Data, Machine Learning

Computer Science (Master of Science) Expected May 2026

Skills and Certifications

Programming- Python, C/C++, Java, JavaScript, HTML/CSS, ReactJs, Kotlin, Object-Oriented Programming, Data Structures & Algorithms, Artificial Intelligence/Machine Learning basics/concepts

Tools- GitHub, VSCode, Jupyter Notebook, PyTorch, TensorFlow, NumPy, Linux/Unix based systems, SQL/PostgreSQL, Pentaho, PowerBI, Snowflake

Languages- English, Chinese (Mandarin, conversational, native), Spanish (basic)

Agile

Work Experience, Projects

Infosys Instep Intern May 2024 - July 2024

Technology Stack- ETL, PentaHo, PowerBI, PostgresSQL, Snowflake

- Collaborated with a team of interns to develop a prototype
- To streamline the migration process from Databases to a Data Warehouse
- While maintaining data integrity for the Infosys Helix Team

Vehicle Body Identification- UConn CSE 5717, Big Data Fall 2024

Technology Stack- Python, TensorFlow, Machine Learning

- Trained and compared the performance of various Computer Vision Models to
- Best classify the body type of a vehicle in an image
- With the best performing model having roughly 80% test accuracy

Airline Reservation System- UConn CSE 3150, C++ Essentials Spring 2024

Technology Stack- C++, Design Patterns

- Developed a flexible airline reservation system with a simple terminal-based UI
- Implemented Depth-First Search to find all possible flight paths between two airports
- Using the Singleton Design Pattern

Interests, Hobbies, Activities

- University of Connecticut Marching Band 2021 - 2024
- UConn Artificial Intelligence Club
  - Webmaster (2023-24)
  - Secretary (2024-25)
- UConn Data Science Club
