Education

- **University of Connecticut, Storrs, CT** August 2021 - Present
  - College of Engineering, School of Computing, Bachelor of Science, 3.38/4.0 GPA
  - Computer Science major (Software Design and Development), Mathematics minor

Skills and Certifications

- **Programming-**
  - Python, C/C++, Java, JavaScript, Object-Oriented Programming, Data Structures & Algorithms
  - HTML/CSS, ReactJs, Kotlin
  - Artificial Intelligence/Machine Learning basics/concepts
- **Tools-**
  - GitHub, VSCode, Jupyter Notebook, PyTorch, TensorFlow, NumPy
  - Linux/Unix based systems, MacOS
  - SQL/PostgreSQL, Pentaho, PowerBI, Snowflake
  - Microsoft Suite
- **Languages-**
  - English, Chinese (Mandarin, conversational, native), Spanish (basic)
- Excellence in communication, collaboration, and teamwork
- Agile

Work Experience, Projects

- **Infosys Instep Intern** May 2024 - July 2024
  - Collaborated with a team of interns to develop a prototype
  - To streamline the migration process from Databases to a Data Warehouse using ETL tools and concepts
  - While maintaining data integrity for the Infosys Helix Team
- **Story Telling Generator-** UConn CSE 4095 Spring 2024
  - Utilized the TinyStories Dataset of over 2,000 stories to finetune a GPT-2 model
  - To enhance story quality and creativity by refining model parameters
- **Airline Reservation System**- UConn CSE 3150 Spring 2024
  - Developed an airline reservation system entirely in C++ with a simple terminal-based UI
  - Implemented Depth-First Search (DFS) algorithm to calculate and display all possible flight paths between two airports, enhancing route-finding capabilities.

Interests, Hobbies, Activities

- University of Connecticut Marching Band
- UConn Artificial Intelligence Club
  - Webmaster (2023-24)
  - Secretary (2024-25)
- UConn Data Science Club
